

Candidate for President of UPADI Eng. Pablo Realpozo del Castillo

Dear colleagues and friends

I am Pablo Realpozo del Castillo, Chairman of the Mexican Federation of Engineers Associations in Mexico, UMAI

I have the honor of been nominated by a distinguished group of UPADI members, as a Candidate for the Presidency of the Pan American Federation of Engineers Associations, in conjunction with the request of the headquarters of UPADI in Mexico

It has been a great experience to participate in UPADI since 1983. Specially by contributing as President of the UPADI Convention of 2004 Organization, which was held in México City, where we received and hosted all of you with friendship and joy

I have taken part on UPADI's Energy Committee for the last 10 years, I was responsible for the Energy Congress of 2006 held in Atlanta, USA and the Costa Rica Meeting on 2007, providing support to all the activities

Regarding my candidature for President of UPADI, I have sent to the Association's Presidents, ideas and proposals to establish in conjunction the Objectives and Action Plan for the present and future of UPADI

I find fundamental to update UPADI's Mission and Vision and jointly carry out a Strategic Planning that integrates the criteria, opinions and values of all the committed engineers

The Pan American Engineering requires to be strengthened with all of our talents and commitment

Cordially and respectfully, I would like to ask you to favor the Mexico's and Pablo Realpozo's postulation for the Presidency of UPADI

With your relevant participation and united, we will achieve a new project to position UPADI as a transcendent and recognized Engineering organization of The Americas

Hoping to meet you soon, to confirm with a hand shake, our great alliance of Pan American engineers

I do thank you

See you in Brasilia

Pablo Realpozo del Castillo
